

FRONT END DEVELOPER

Front-end Development

A **Frontend Developer** is a professional who designs and develops the visual and interactive elements of websites and web applications that users directly engage with. They use technologies like **HTML, CSS, and JavaScript**, along with frameworks such as **React, Angular, and Vue.js**, to create responsive, user-friendly, and dynamic web experiences. Their focus is on **UI (User Interface) and UX (User Experience)**, ensuring websites look good and function smoothly across different devices and browsers.

❖ Core Technical Skills:

1. HTML
