<https://www.w3schools.com/php/default.asp>

vi) C#

https://www.simplilearn.com/free-c-sharp-course-beginners-skillup?utm_source=SkillUp_HomePage&utm_medium=explore_free_courses&utm_campaign=Introduction%20to%20C#
<https://www.w3schools.com/cs/index.php>

vii) Web Frameworks

viii) API Development

<https://www.coursera.org/learn/apis>

ix) GraphQL

3. Database Management

A) SQL Databases

https://www.simplilearn.com/free-sql-fundamentals-course-skillup?utm_source=SkillUp_HomePage&utm_medium=explore_free_courses&utm_campaign=Fundamentals%20of%20Database:%20What%20is%20SQL

<https://www.simplilearn.com/free-online-course-to-learn-sql-basics-skillup>

B) NoSQL Databases

https://www.simplilearn.com/free-nosql-course-skillup?utm_source=SkillUp_HomePage&utm_medium=explore_free_courses&utm_campaign=Introduction%20to%20NoSQL

C) ORM (Object-Relational Mapping) Tools

4. Version Control Systems like (GitHub/GitLab/Bitbucket)
5. Server, Networking, and Deployment
 - i) Servers and Hosting
 - ii) Cloud Platforms
 - iii) Containers and Virtualization
6. Web Security
7. DevOps and Automation
8. Soft Skills (Problem-Solving and Debugging, Collaboration and Communication, Project Management, Time Management)
9. Testing and Debugging
